Advances Extending From Two to Three Points.

The Market Aroused by the Report of the Carnegie-Morgan Deal-The List Generally Strong and Active. American Shares Command Better Prices on the London Exchange.

NEW YORK, Feb. 6 .- The reports that the preliminary papers in the agreement to be arranged between the great steel manufacturing companies had been signed resulted in tremendous dealings and material advances in all of the steel industrial stocks this morning. These advances extended to from 2 to 3 points in American Steel and Wire, Federal Steel, National Tube, and the lower-priced issues of the same class also advanced rapid-

The whole market, however, was likewise decidedly strong and active. The authracite coal stocks showed particular strength, with large dealings in the Erie issues. the New York, Ontario and Western, and the Reading shares. The granger stocks were comparatively dull, but were very steady. There were further sharp advances in Union Pacific, Missouri Pacific, and Northern Pacific. Southern Pacific was inclined to be somewhat re-

Other very strong features were the Denver shares, Southern Railway, common and preferred, Chesapeake and Ohio, Peunsylvania, and New York Cutral.

The local traction issues were compara-

tively neglected. The London market for American stocks was shown at material advances, and for-eign houses were active buyers here upon the opening of business. As noted, the main incentive to the dealings was this morning's intelligence respecting the dewelopments in the steel trade, but the dealings in the railway list continued to be influenced by the belief in further impending developments in the way of the formation of new alliances.

 There was a higher opening in the Stock Market this morning nearly everywhere, with the conspicuous advances in the steel group, but strength also in the railway list generally. Soon after the opening a reaction began which extended until 12 It could not be determined at that time if the break would extend much further or not, but opinion among the conserva-tive market people seemed to be tha there would be a recovery before the close It can be seen, however, that a more imthey have been made practically without a halt. Business conditions are still favorable everywhere, and ultimately the will be a range of prices well above the present level in all probability. At pres-ent buying is only advised on the sharp breaks and selling is suggested by many as the proper course on the bulges. In-vestors will perhaps not dispose of their securities yet, for fear they may not be able to get them back on a break, which

possibly may not come.

The news of the morning undoubtedly of affairs here it is impossible to say as yet. The stories are various, but all seem to agree that there has been some arrangeally advantageous. Hints of this deal were the cause of the great buoyancy of the steel securities yesterday and the more positive stories this morning made the positive stories this morning made the group open at a high level. Federal Steel, common, went as high as 53 and the preferred as high as 80. Steel and Wire, common, advanced to 51. National Steel, common, to 481-2, and Colorado Fuel and Iron to 50. Tennessee Coal and Iron was an exception, making no advance worth recording. The group reacted with the general market after the opening a point or more. There was *Fry good support. or more. There was very good support at the lower figure and many believed that there would be a recovery then instead of a further tumble. The news is, of course of the utmost importance. On the other hand it is "out" and many people believe in selling out their stocks on an announce-ment of this kind. Of course the present prices for this group are not as high as they should sell according to all the known feet but after a steady advance of 10 price or more a break of a few points when the survising. Another announcement of appropriate regarding the

tion, which adds to the these stocks is to the ce of \$1 a ton is likely price of steel rails in

off with the general close was especially good as the stock water supply. Probably 7,000 men are out terday.

reaus made the announcement very positively that a dividend of 3 per

LA GRIPPE QUICKLY CURED.

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called la grippe." says F. L. Hewett, a prominent druggist of winfield HI. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with grip." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia, It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by Henry Evans, wholesate and retail, and all druggists.

Parrot and Colorado. Senator Clark does not get this water supply through the city mains. The permanent plant at the Big Hole 'ias not as yet been established.

A Veteran's Story.—George Lew's, of Shamokin, Pa., writes: "I am eighty years of age. I have been troubled with Catarrh for filty years, and in my time have used a great many catarrh cures, but never had any relief until I used Dr. Agnew's Catarrhal Powder. One box cured me completely." 50 cents. Sold by F. S. Williams, Ninth and F Streets, and Edmonds & Williams. Third Street and Pennsylvania Avenue.—13.

cent is to be declared on the stock text June. Whether this is so or not, the company is earning 7 per cent on the stock, so that it would seem cent on the stock, so that it would seem to be a good purchase on all reactions. The tip that it will go to 60 is not far from fulfillment, and on any further advance at present profit taking is advised. The preferred should have a good spward movement irrespective of the movements of the common. It will be seen that with a par cent agreed on the preferred and of the preferred and on the preferred and of the preferred and on the preferred and of per cent earned on the preferred and 7 er cent earned on the common, the se-urity of the dividend on the preferred sexcellent.

It is believed that a dividend of at least 3 per cent will be declared on St. Louis and Southwest at the next meeting of the directors. Some authorities promise 4 per cent.

The Tobacco securities were among the features yesterday, and this morning The reason for the strength of the securthe reason for the strength of the securities was evident. The Senate Finance Committee formally adopted its tobacco amendment, which allows a rebate of one-fourth to all purchasers of tobacco stamps, which means virtually that the tax is reduced one-fourth. This will mean a saving to the tobacco companies of saveral million dellaws and if the hill. of several million dollars, and if the bill becomes a law it will mean that the to-bacco stocks should sell at a price permanently much higher than the present level. Careful people, however, advise the taking of profits on the bulges for the very good reason that the House Ways and Means Committee is not favorable to any such sweeping reduction, and is not likely to consent to it under any circum-stances. Or so at least some of the prom-inent members of the committee have said to their friends.

The coal securities generally had a good advance yesterday on heavy buying, but they sagged off somewhat this morning. The favorable cold weather generally has started buying by the pool in the group, which has been neglected for some time past. It is probable that the movement is not yet over, as the level of the stocks is relatively lower than that of one others. relatively lower than that of any others in the railway list.

MONTANA MINES IDLE

A Shortage of Water Throws Thousands Out of Work.

BUTTE, Mon., Feb. 6.-Every mine and noist in the city, with the exception of those operated by Senator Clark, is shut down as the result of a shortage of the ing the project. He was in the city yesof employment, but the water company states that the famine will be relieved in a few days if it can get the new plant at the Big Hole River in operation.

Among the companies affected by the shortage of water are the Anaconda, Butte and Boston, Boston and Montana, M. O. P., Parrot and Colorado. Senator Clark does not get his water supply through the city

RUMOR ABOUT MARTINELLI.

Authentic News of the Papal Dele-

gate's Elevation Lacking. Rev. Dr. Rooker, Secretary of the Apostolic Delegate, regarding the report of Archbishop Martinelli's proposed elevasistory in Rome in March, said this morn-

"There has been a persistent rumor, and

from good authority, that Archbishop Martinelli would be created a Cardinal a the next consistory. It would not be surprising if the rumor turns out to be true, but that is all that I know about the matter. There has not been received any information by the Archbishop, as far as my knowledge goes, regarding the matter. my knowledge goes, regarding the matter. But as far as his reported preparation to go to Rome for the purpose of receiving the red hat from Pope is concerned, I can say that there is absolutely no truth in it. "Should the Archbishop be created a Cardinal the beretta would be sent here from Rome, as in the case of Cardinal Satolli, and would be conferred upon the Archbishop by Cardinal Gibbons. Of course the red hat is conferred by the Pope and the recipient must, of course, Pope and the recipient must, of course, go to Rome for the purpose, but the red hat is not bestowed at the same time as the beretta. It takes months, and sometimes a year, before orders come from Rome to receive the red hat. The appoint-ment as Cardinal, however, dates from the time of receiving the beretta. As re-gards a successor to the Archbishop, I cannot say anything. I have no idea on

ASKS DAMAGES FOR INJURIES.

Henry Washington Sues the Degnon-

McLean Construction Company. Henry Washington today filed suit against the Degnon-McLean Construction Company to recover \$5,000 claimed as damages for personal injuries sustained while in their employment.

It is explained that the plaintiff was employed as a laborer by the defendant in the repairing and altering of the Southern Radway building at the corner of Thirteenth Street and Pennsylvania Avenue, on November 5 last. While enagged at his work, he states, he was struck by material falling from the building, and his skull fractured, causing him permanent injury. Attorneys H. G. Kimball and William H. White represent the

HIGH WINDS IN CAMDEN.

A Wagon Overturned and the Driver Painfully Injured.

CAMDEN, N. J., Feb. 6.-The high winds were the cause of much trouble in Camden yesterday. The canvas tops of wagons were torn off and many awnings were destroyed. A laby coach was torn from the grasp of a woman on Federal Street and sent bowling along the sidewalk at terrific speed, while the woman in charge

terrific speed, while the woman in charge of it was blown violently against a telegraph pole. Two men recovered the coach and restored it to the woman.

A wagon belonging to James J. Bedding, of 325 Arch Street, Philadelphia, was overturned on Federal Street and the driver, James J. Brown, was tumbled into the street. The wagonload of empty packing boxes tell upon Brown, cutting him about the hands and face. He was sent to the Cooper Hospital.

The front storm window of a North Fifth Street trolley car was demolished on State Street and fragments of glass cut the motorman, S. C. Matlack, severely

about the face. TO MEET M'COY AND RYAN.

George P. Gardner Coming Home From South Africa.

LOWELL, Mass., Feb. 6 .- A letter has been received from George P. Gardner, the lightweight sparrer, now in South Africa, in which he says he is coming home to meet McCoy and Ryan in the ring, if he can arrange it in any way.

He writes:
"I can defeat either of them and not kill myself trying to do it. If I am not the middle-weight champion of the world within a year, I'll quit the business and say I am better fitted for something else. McCoy put me off in England by saying he would fight me in South Africa. It is my opinion be does not want to weet me my opinion he does not want to meet me in that ring contest."

CONDUCTOR CHEATS DEATH.

motive Passes Over Him.

READING, Pa., Feb. 6.-William Eisenhower, conductor of the Oley Stree transfer in the Reading Railway yards, while doing some shifting, slipped directly in front of his engine, and fell between the rails.

The locomotive was moving toward im rapidly. He knew that if he athim rapidly. He knew that if he at-tempted to move he would be caught, and decided to remain still. A second later the engine shot over him. Elsenhower lay on his back and dodged everything he thought would strike him.

The engine and tank passed over him completely. The only injuries he sustained were a slight cut on the back of the head, a bruise to one of his limbs and a stiff neck.

OUTWITTED BY A WOMAN.

Triumph Over Professional Buyers at a Real Estate Sale.

The Once Famous Wall Street Man do men when the annual delinquent is asked real estate took place here yesterday. The young woman was Elizabeth J. Watson, representing Charles H. Wesley, of Rochester, N. Y., who operates extensively in the purchase of real estate for taxes. The man who usually bids in the property for Wesley was sick and Miss Watson come to Cleveland in his place.

Miss Watson come to Cleveland in his place.

Miss Watson of a front sear and professional buyers of real estate sold for more than a month. Two weeks ago, when he was reported to be very ill, members of his family said they thought the would soon be ablie to be up again, they oung woman and forced her to bid high, but she succeeded in piding about everything she wanted.

When Cammack, saw that the war was coming on he made up his mind that the business of a ship broker was not a good one, so he went to Havana, where he was engaged in running the blockade which NEW HAVEN, Conn., Feb. 6.—The fun-eral of the late Prof. Edward E. Salisbury, lucky. Like the rest of the blockade runthe Federal Government established along of Yale University, will be held from his late home, 237 Church Street, tomorrow afternoon at 2:30 o'clock. The funeral services will be conducted by ex-President Timothy Dwight, of Yale, and Rev. Arthur Shirley, of Lyme, Conn. The honorary pallbearers will be Profs. George Day, Simeon E. Baldwin, Addison Vanname, Edward D. Dana, J. M. Hoppin, and J. G. Brush, of Yale.

ners he took in munitions of war and took out cotton. At the close of the civil was war to control the whisky business. He was successful, but certain changes in the Internal revenue laws made the business unprofiable and he sold out and went to Europe. Three years later he came back to New York determined to go into Wall Street. He associated himself with what was then known as "the Twenty-third" of Yale University, will be held from his ners he took in munitions of war and took Street gang," consisting of William B. Travers, George Osgood, and Ben Carver. This widely-known and powerful party

was not bound by partnership. it was like a secret society with a compulsory
